

The Drizzle Wall will often arrive partially assembled, hooked together in vertical columns of predetermined height. If the columns happen to come unhooked in transit, follow the steps below to create the finished Drizzle Wall. Extra tie line will also be provided.

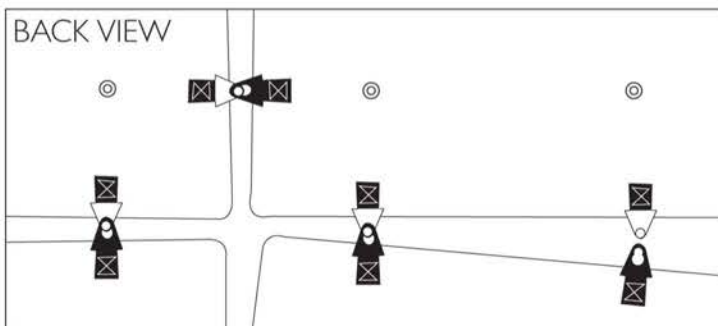

**Dimensions**

24"H x 24"W x 1"D, 2 lbs

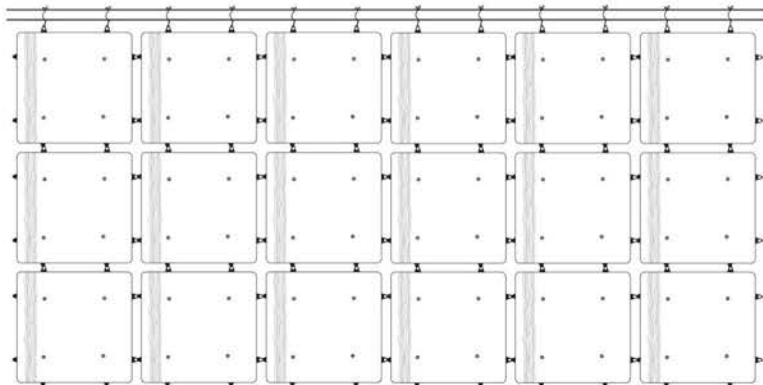

**STEP ONE**

Hang top row of drizzle panels from truss with pre-attached tie-line. The grain of each panel should run vertically. The panels should be hung close enough for the side clasps to be closed.

**STEP TWO**

To attach panels hook all of the clasps together.

**STEP THREE**

Continue to add panels until the desired size is reached.
