

Dimensions

22" H x 22" W x 14" D 3lbs

NOTE:

For safety and greatest efficiency while building Concertina, begin with the truss at working height. Gradually raise the truss as you continue to build.

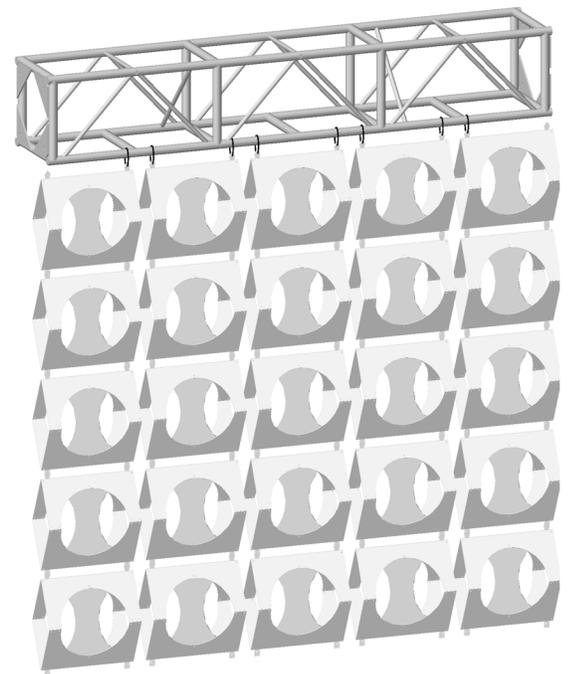

STEP ONE

Starting at one end of the truss, begin to secure the first row of Concertina panels using the tieline provided. The individual panels should be evenly spaced.

STEP TWO

Continue to add Concertina panels by attaching the buckles on the tops and bottoms of the panels. Follow this procedure until the desired column height is reached.
